Move Balky Animal. Miss Anne Morgan, members of the Girls Vacation Fund, and one taxicae chauffeur decided last night that a mule may pride himself on being the smallest species of that genus in the world but he's a mule, nevertheless. That conclusion was reached after a lengthy conference of the Vacation Fund's circus committee concerning the best means of transporting the smallest mule in the world from Little's Riding Academy West Fifty-sixth street to the Sevenly-first Regiment Armory, Park avenue and Thirty-fourth street, for a dress rehearsal of the circus to be held to-

But universality does not necessarily signify preciousness.

Learned comment is sometimes made on the great difference between the style of "Iris" and "Cavalleria Rusticana"; but those who have passed some time is Sicily and kept their ears open are not greatly moved by this comment. Some of them even go so far as to say that they have heard most of the tunes in "Cavalleria" in Sicily, whereas it is perfectly obvious that Mascagni invented most of those in "Iris" and did not even take the trouble to consult a volume of Japanese music. clume of Japanese music.

"Iris" is a pleasing opera, not great in musical content and narrow in style, but sufficient to furnish an evening of interest to those who do not expect highly serious artistic proclamations from a lyric drama. The present sea-son's production of the work at the Met-ropolitan is one of much excellence. Occasion has already been taken to comment on the new life which Mr. Tos-canini's interpretative skill has put into the work and a brief comment was made

on Miss Bori's exquisite impersonation of the little Japanese girl.

This is indeed a creation of singular charm and of delicate musical beauty. The singer imparts to the role the full measure of innocence and delineates the frazile spirit, with a government and measure of innocence and delineates the fragile spirit with a gentleness and a certainty quite admirable. The wonder of the child at the strange world into which she is thrust and her tender grief in the final hour of tragedy are elequently portrayed. Miss Bori sings the music very beautifully, especially the important scene of the second act. Her Iris will add to her credit as an artist.

Mr Botta is very successful in his disguise as a gentleman of Japan, and his Osaka is sufficiently good to meet the requirements of most of the situations. Mr. Scotti, whose fortunes have of late carried him into the darker haunts of the vallow perils is admired. of late carried him into the garker haunts of the yellow perils, is admirable as Kyoto, ani Mr. Didur makes a rugged figure of the father. Altogether "Iris" has been revived adequately, but the opera itself seems at critical moments to possess theatrical effectiveness rather than inspiration.
